

ISRAEL JACOB ORTIZ

Data Engineer • Python • SQL • Spark • ETL/ELT • Airflow • dbt • Data Warehouse • Cloud

Washington, DC | 540 498 0854 | hello@israeljortiz.com

github.com/israelortizcpsc | [in/israeljortiz](https://in.israeljortiz)

PROFESSIONAL SUMMARY

Data engineer with 5+ years of professional experience designing and operating scalable ETL/ELT pipelines and data warehouses in **Python, SQL, Spark, Airflow, and dbt**. Builds reliable, well-tested data platforms with strong data-quality, validation, and governance across Azure, AWS, and modern cloud warehouses.

PROFESSIONAL EXPERIENCE

Data Engineer | *SUCCESS Magazine*

Data Pipelines • Warehouse • Data Quality

Apr 2023 – Present

Washington, DC (Hybrid)

- **Design and build ETL/ELT pipelines** in Airflow, dbt, Spark, and Python, moving millions of records a day into the warehouse with validation and reconciliation.
- **Model and optimize the data warehouse** — dimensional models, partitioning, and indexing — taking core reports from minutes to sub-second.
- **Own data quality and governance** with automated checks, metadata and lineage, and monitoring across 100+ tables, and partner with analysts and business teams.

Founder & Principal Data Engineer | *Ambrose*

Boutique Data Consultancy • Part-Time

Jul 2021 – Present

Remote

- **Founded and run Ambrose**, a boutique data consultancy, leading a small team that builds ETL pipelines, warehouses, and streaming for SMB and enterprise clients on Azure and AWS.

Data Engineer / Team Lead | *SPCA International*

Warehouse & Pipelines — Team Lead

Sep 2020 – Mar 2023

Washington, DC

- **Led a four-person data team** over two and a half years, owning the warehouse and Airflow/SSIS pipelines and shipping nine releases.
- **Ran a data-quality initiative** that raised record accuracy from the low 80s to around 98% and supported audit-ready reporting.

Freelance Data Engineer | *Independent / Contract*

Solo Client Work Prior to Founding Ambrose

Feb 2019 – Jun 2021

Remote

- **Built ETL pipelines and warehouses** for early clients as an independent contractor — building the track record that led to founding Ambrose.

TECHNICAL SKILLS

Pipelines & Processing: Apache Spark, Airflow, dbt, Kafka, SSIS; Python (Pandas, PySpark), ETL/ELT design, batch & streaming, CDC

Warehouses & SQL: Snowflake, BigQuery, Redshift, Databricks; PostgreSQL, SQL Server; advanced SQL, dimensional modeling, tuning

Cloud & DevOps: Azure (Data Factory, Databricks, Synapse), AWS (Glue, EMR, S3); Docker, Git, CI/CD, Terraform

Quality & Governance: Data validation & reconciliation, Great Expectations, metadata/lineage, data governance, monitoring

EDUCATION

Virginia Tech — *M.Eng., Computer Science (Data Engineering & Data Systems)*

2023 – 2024

GPA: 4.0 | Full-Ride & Tech Talent Investment Program (TTIP) Scholar

Relevant coursework: ETL & Data Integration, Data Warehousing & Dimensional Modeling, Advanced SQL, Big Data (Spark), Cloud Data Platforms, Data Quality & Governance.

University of Mary Washington — *B.S., Computer Science & Data Analytics (Double Major)*

2019 – 2022

GPA: 3.8 | Dean's List 7/8 Semesters

Honors & Leadership: FBLA Collegiate Chapter — President & Founder; University-Wide Data Engineering & SQL Competition — 1st Place; IT Advisory Board — Treasurer.

CERTIFICATIONS

Microsoft Certified: Azure Data Engineer Associate (DP-203) • Databricks Certified Data Engineer Associate • Google Cloud Professional Data Engineer • Astronomer / Airflow Certified
