

ISRAEL JACOB ORTIZ

DevOps / Platform Engineer (SRE) • AWS • Kubernetes • Terraform • CI/CD • IaC • Observability

Washington, DC | 540 498 0854 | hello@israeljortiz.com

github.com/israelortizcpsec | [in/israeljortiz](https://in.israeljortiz.com)

PROFESSIONAL SUMMARY

DevOps / platform engineer with 5+ years of professional experience building reliable, automated infrastructure and delivery pipelines **on AWS and GCP with Kubernetes, Terraform, and CI/CD**. Strong on infrastructure-as-code, observability, incident response, and SRE practices (SLOs, automation) that keep systems fast, scalable, and secure.

PROFESSIONAL EXPERIENCE

DevOps / Platform Engineer (SRE) | *SUCCESS Magazine*

Apr 2023 – Present

Cloud Infrastructure • Kubernetes • CI/CD

Washington, DC (Hybrid)

- **Own cloud infrastructure as code** — Terraform-managed AWS across ECS/EKS for a platform serving millions of users — standardizing environments and cutting provisioning time by about 80%.
- **Build CI/CD and deployment platforms** — GitHub Actions, ArgoCD, and Docker/Kubernetes — enabling safe, frequent deploys with automated rollbacks.
- **Drive reliability and observability** with SLOs, Prometheus/Grafana/Datadog, and incident response, improving uptime to 99.9%+ and cutting time-to-resolve.

Founder & Principal Platform Engineer | *Ambrose*

Jul 2021 – Present

Boutique DevOps Consultancy • Part-Time

Remote

- **Founded and run Ambrose**, a boutique DevOps consultancy, leading a small team that delivers IaC (Terraform/CDK), Kubernetes, and CI/CD pipelines on AWS and GCP for SMB and enterprise clients.

DevOps Engineer / Team Lead | *SPCA International*

Sep 2020 – Mar 2023

Infrastructure & Reliability — Team Lead

Washington, DC

- **Led a four-engineer team** over two and a half years, owning infrastructure and reliability and shipping nine releases.
- **Containerized and migrated a monolith** to Kubernetes on AWS, cutting response times to roughly 300ms and hardening security.

Freelance DevOps / Platform Engineer | *Independent / Contract*

Feb 2019 – Jun 2021

Solo Client Work Prior to Founding Ambrose

Remote

- **Built cloud infrastructure and CI/CD** for early clients as an independent contractor — building the track record that led to founding Ambrose.

TECHNICAL SKILLS

Cloud & Containers: AWS (ECS, EKS, Lambda, RDS, S3, IAM), GCP; Docker, Kubernetes, Helm, service mesh; Linux

IaC & CI/CD: Terraform, CloudFormation, CDK, Ansible; GitHub Actions, Jenkins, ArgoCD, GitLab CI; GitOps

Observability & SRE: Prometheus, Grafana, Datadog, ELK; SLOs/SLIs, incident response, on-call, autoscaling, chaos testing

Scripting & Security: Python, Bash, Go; secrets management (Vault), security hardening, cost optimization, networking

EDUCATION

Virginia Tech — *M.Eng., Computer Science (Cloud Computing & Site Reliability Engineering)*

2023 – 2024

GPA: 4.0 | Full-Ride & Tech Talent Investment Program (TTIP) Scholar

Relevant coursework: Cloud Computing (AWS), Kubernetes & Containers, Infrastructure-as-Code, Site Reliability Engineering, Observability, Networking & Security, CI/CD.

University of Mary Washington — *B.S., Computer Science & Economics (Double Major)*

2019 – 2022

GPA: 3.8 | Dean's List 7/8 Semesters

Honors & Leadership: FBLA Collegiate Chapter — President & Founder; University-Wide Cloud & DevOps Competition — 1st Place; IT Advisory Board — Treasurer.

CERTIFICATIONS

AWS Certified Solutions Architect – Professional • Certified Kubernetes Administrator (CKA) • HashiCorp Terraform Associate • AWS Certified DevOps Engineer – Professional
