

ISRAEL JACOB ORTIZ

Software Engineer • Python • Java • TypeScript • Go • Distributed Systems • Cloud • CI/CD

Washington, DC | 540 498 0854 | hello@israeljortiz.com

github.com/israelortizcpsc | [in/israeljortiz](https://in.israeljortiz)

PROFESSIONAL SUMMARY

Software engineer with 5+ years of professional experience designing, building, and shipping scalable production systems **across Python, Java, TypeScript, and Go**. Strong in data structures and algorithms, system design, and the full SDLC — from requirements through testing, deployment, and monitoring. Ships high-quality, testable code and collaborates through design and code reviews in Agile teams.

PROFESSIONAL EXPERIENCE

Software Engineer | *SUCCESS Magazine*

Apr 2023 – Present

Scalable Backend & Full-Stack Systems

Washington, DC (Hybrid)

- **Design and ship** scalable backend and full-stack services in Python, Java, and Go for a platform serving millions of users, cutting a critical endpoint's latency by about 35%.
- **Own features end-to-end** — from API and data model through UI — partnering across product and design to keep the codebase clean, well-tested, and maintainable.
- **Mentor engineers and raise the quality bar** through design and code reviews and by expanding automated test coverage to 85%+ and improving observability.

Founder & Principal Engineer | *Ambrose*

Jul 2021 – Present

Boutique Software Consultancy · Part-Time

Remote

- **Founded and run Ambrose**, a boutique software consultancy, leading a small team that builds Python, Java, and TypeScript applications on AWS for SMB and enterprise clients — architecture through CI/CD delivery.

Software Engineer / Team Lead | *SPCA International*

Sep 2020 – Mar 2023

Platform Engineering — Team Lead

Washington, DC

- **Led a four-engineer team** over two and a half years, owning core platform services and shipping nine major releases with rigorous design and code review.
- **Modernized a legacy monolith** into a service-based architecture on AWS, cutting response times from over a second to roughly 300ms and improving reliability.

Freelance Software Engineer | *Independent / Contract*

Feb 2019 – Jun 2021

Solo Client Work Prior to Founding Ambrose

Remote

- **Delivered web and backend projects** for early clients as an independent contractor in Python, Java, and TypeScript — building the track record that led to founding Ambrose.

TECHNICAL SKILLS

Languages: Python, Java, TypeScript/JavaScript, Go, SQL; data structures, algorithms, object-oriented & systems design

Backend & APIs: Spring Boot, Node.js, FastAPI; REST, gRPC, GraphQL; PostgreSQL, MySQL, MongoDB, Redis

Cloud & DevOps: AWS (ECS, Lambda, RDS, S3), Docker, Kubernetes; CI/CD (GitHub Actions), Terraform; monitoring (Datadog)

Practices: Agile/Scrum, full SDLC, TDD & automated testing, design & code review, distributed systems, scalability

EDUCATION

Virginia Tech — *M.Eng., Computer Science (Software Engineering & Distributed Systems)*

2023 – 2024

GPA: 4.0 | Full-Ride & Tech Talent Investment Program (TTIP) Scholar

Relevant coursework: Data Structures & Algorithms, Distributed Systems, System Design & Scalability, Cloud Computing (AWS), Operating Systems, Databases, Software Testing.

University of Mary Washington — *B.S., Computer Science & Economics (Double Major)*

2019 – 2022

GPA: 3.8 | Dean's List 7/8 Semesters

Honors & Leadership: FBLA Collegiate Chapter — President & Founder; University-Wide Algorithms & Software Engineering Competition — 1st Place; IT Advisory Board — Treasurer.

CERTIFICATIONS

AWS Certified Solutions Architect – Associate • AWS Certified Developer – Associate • Oracle Certified Professional: Java SE 17

• Certified Kubernetes Application Developer (CKAD)
