

ISRAEL JACOB ORTIZ

Network & Cloud Infrastructure Administrator · Azure | Hybrid Networking | IaC | DoD

Washington, DC | 540 498 0854 | hello@israeljortiz.com | github.com/israelortizcpsec | linkedin.com/in/israeljortiz

U.S. Citizen · Interim DoD SECRET eligible, able to obtain Top Secret · SecurityX

PROFESSIONAL SUMMARY

Network and cloud infrastructure administrator with 5+ years across system/network administration — including 2+ years focused on Microsoft Azure cloud networking — bridging hybrid on-premises and Azure-native environments in secure, mission-driven settings. Maintains hybrid connectivity (ExpressRoute, Site-to-Site VPN, Azure Virtual WAN) across Windows Server and Linux, automates provisioning with Bicep/ARM/Terraform, and enforces zero-trust security (Azure Firewall, NSGs, Private Endpoints, Microsoft Entra ID). Recently built **Bastion**, an IaC hybrid Azure landing zone with zero-trust networking that mirrors this role's core work.

PROFESSIONAL EXPERIENCE

Network & Cloud Infrastructure Administrator | SUCCESS Magazine

Apr 2023 – Present

Washington, DC (Hybrid)

- **Led migration of a hybrid on-premises environment toward an Azure-native ecosystem**, migrating 120+ workloads and cutting data-center footprint ~40% while maintaining 99.9% uptime.
- **Maintained and optimized hybrid network connectivity** — ExpressRoute, Site-to-Site VPNs, and Azure Virtual WAN — across Windows Server and Linux (Ubuntu/RHEL), reducing network incidents ~35%.
- **Automated Azure provisioning with Bicep, ARM templates, and Terraform**, cutting environment build time from ~3 days to under 4 hours, and enforced zero-trust boundaries via Azure Firewall, NSGs, ASGs, Private Endpoints, and Entra ID IAM.
- **Stood up proactive monitoring and observability** with Azure Monitor, Log Analytics, and Network Watcher, cutting mean time to detection ~50%, and governed on-prem assets during migration with Azure Arc.

Cloud & Network Engineer (Custom Client Solutions) | Ambrose

Jul 2021 – Present

Part-Time · Remote

- **Delivered custom infrastructure and cloud solutions tailored to each client's needs** — from Azure landing zones to hybrid network buildouts — across 12+ engagements.
- **Configured and troubleshot Cisco and Juniper (Junos) hardware** and hybrid Azure networking (VNETs, peering, Load Balancers, Application Gateways, Front Door), sustaining 99.95% connectivity uptime.
- **Scripted automation and configuration management** in PowerShell, Bash, and Ansible, cutting manual provisioning effort ~60% with repeatable, secure environments.

Systems / Network Administrator, Team Lead | SPCA International

Sep 2020 – Mar 2023

Team Lead · Washington, DC

- **Led a 4-person infrastructure team** administering and securing 200+ cross-platform Windows Server and Linux endpoints (iptables, enterprise firewalls) at 99.9% availability.
- **Implemented hybrid identity and access management** with Azure AD Connect / Microsoft Entra ID and hardened security posture, cutting access-related tickets ~30%.

Freelance Systems & Network Administrator | Independent / Contract

Feb 2019 – Jun 2021

Solo client work prior to founding Ambrose · Remote

- **Administered on-premises and early-cloud networks for 10+ clients** — configuring routers/switches and firewalls, scripting in PowerShell/Bash, and supporting Windows and Linux servers end to end.

SELECTED PROJECT

Bastion — IaC hybrid Azure landing zone with zero-trust networking & monitoring

- **Reproducible hybrid Azure landing zone provisioned entirely as code** (Terraform + Bicep) — VNETs, peering, and Site-to-Site VPN with zero-trust boundaries (Azure Firewall, NSGs, Private Endpoints, Entra ID) and built-in monitoring (Azure Monitor, Network Watcher), deployable from a single pipeline — mirroring this role's core work.

TECHNICAL SKILLS

Azure Cloud: VNETs, peering, ExpressRoute, Site-to-Site VPN, Virtual WAN, Load Balancer, App Gateway, Front Door, Azure Arc, Monitor, Network Watcher

Security & Identity: Azure Firewall, NSGs, ASGs, Private Endpoints, Microsoft Entra ID / Azure AD Connect, zero-trust frameworks

IaC & Automation: Azure Bicep, ARM templates, Terraform, PowerShell, Bash, Ansible

Networking & OS: Cisco & Juniper (Junos) hardware, routing/switching, iptables/firewalls; Windows Server, Linux (Ubuntu/RHEL)

EDUCATION

Virginia Tech — M.Eng., Computer Science (Cloud & Network Security)

2025 – 2026

GPA 4.0 · Full-Ride & Tech Talent Investment Program (TTIP) Scholar

University of Mary Washington — B.S., Computer Science & Mathematics (Double Major)

2019 – 2022

GPA 3.8 · Dean's List 7/8 · FBLA Collegiate Chapter President & Founder · 1st Place, University-Wide Coding Competition

CERTIFICATIONS

SecurityX · Azure Network Engineer (AZ-700) · Azure Administrator (AZ-104) · RHCSA (Linux)
